

Name: _____

Date: _____

Chapter 4

Across

2. The flow of electricity along a conductor
3. A process that forces an alkaline product into the tissues from the negative toward the positive pole
7. A wavelength is the distance between successive peaks of
9. All lasers work by a process known as selective
10. The device that prevents excessive current from passing through a circuit

Down

1. Extremely low level of electricity that mirrors the body's natural impulses
4. Unit that measures pressure or force that pushes the flow of electrons through a conductor
5. The unit that measures the resistance of an electric current
6. A device that changes direct current to alternating current
8. Negative electrode of an electrotherapy device
