

# Chapter 5 Creative study

## Across

5. an eye in which the natural lens is replaced with an artificial lens implant  
6. glassy  
12. right or left eye deviates outward  
14. excision of an eyeball  
16. light  
17. eyelid  
18. retina  
19. inflammation of the sclera  
22. tear  
24. nearsightedness  
26. use of a tonometer to measure intraocular pressure

## 28. water

29. inflammation of the tear sac  
30. misdirected eyelashes that rub on the conjunctiva or cornea

## Down

1. abnormal overflow of tears caused by blockage of lacrimal duct  
2. laser-assisted in situ keratomileusis  
3. impaired vision caused by old age  
4. drooping of the eyelid  
7. a condition of eye misalignment caused by intraocular muscle imbalance

## 8. inward turning of the rim of the eyelid

## 9. inward turning of the rim of the eyelid

## 10. opaque clouding of the lens causing decreased vision

## 11. pinkeye

## 13. eye

## 15. cornea

## 20. use of intense cold to seal a hole or tear in the retina

## 21. right or left eye deviates inward

## 23. sty

## 25. absence of the lens

## 27. farsightedness
