

Chapter 7 Haircutting Vocabulary

Across

3. a way to measure circles
 5. 2 lines that intersect at a 90 degree angle
 7. Cutting with the points of the shears
 11. in haircutting, to layer the hair
 12. Graduated effect by cutting the hair with elevation or over direction
 14. Used to cut a blunt straight line
 15. the direction in which the hair naturally grows
 16. used to remove bulk from the hair
 17. how tightly the hair is pulled when cutting

19. level at which a blunt cut falls; where the ends of the hair hang together

20. used to create very short tapers quickly

22. cutting the hair with the head held in a forward position so that each parting is cut slightly longer than the previous parting to encourage the hair to curl under

23. Cutting straight across a strand of hair, forming a weight line

Down

1. to indicate the angle or degree the hair is held from the head

2. 2 or mor lines that do not meet in space

4. Section of hair that determines the length the hair will be cut.

6. hair that forms in a circular pattern as on the crown

8. a tuft of hair that stands up

9. described as fine, medium, or coarse

10. subdivision of a section, used for control when cutting

13. divisions of the hair made before cutting

18. Holding the shears at an angle to the hair stand other than 90 degrees

21. used to creat clean lines around the perimeter of a short taper
