

Name: _____

Date: _____

Chapter 7 Quiz C

Across

3. the tendency to think of things only in terms of their functions, inability to see new use for an object.
 9. smallest units of meaningful sound
 10. words spoken or written in a particular order or sequence
 11. tendency not to change our belief
 12. smallest units of sound in any language
 13. thinking directed at one solution

14. a tendency to seek evidence or information to confirm our preconceptions and ignore evidence that contradicts it

15. estimating the likelihood of events based on their availability in memory

Down

1. assumption that the structure of a language we learn affects a speaker's world view, may control how we think
 2. judging the likelihood of things in terms of how well they seem to represent or match particular prototypes

4. thinking directed at multiple solutions

5. what we think is the best example of a concept (a mental image or best example)

6. ability to learn language rapidly as a child.

7. a quick or simple strategy that allows us to make judgments or solve problems (rule of thumb)

8. mental pictures we create in our mind of the outside world

Word Bank

prototypes
 belief bias
 representative heuristic
 functional fixedness
 confirmation bias

availability heuristic
 linguistic relativity hypothesis
 convergent thinking
 Heuristic
 language acquisition

syntax
 phonemes
 divergent thinking
 Morphemes
 images
