

Chapter 8: Gender

Across

2. theoretical tradition claiming that every society has certain structures
6. sets of behavioral norms assumed to accompany one's status as a male or female
10. the social identity of a person who has sexual attraction to and/or relations with other persons of the same sex
12. the condition in which men are dominant and privileged, and this dominance and privilege is invisible
13. a nearly universal system involving the subordination of femininity to masculinity

14. an invisible limit on women's climb up the occupational ladder
15. a social position; the set of social arrangements that are built around normative sex categories

Down

1. the accelerated promotion of men to the top of a work organization, especially in feminized jobs
3. desire, sexual preference, and sexual identity and behavior
4. an illegal form of discrimination, involving everything from inappropriate jokes on the job to sexual assault

5. occurs when a person's sex or gender is the basis for judgment, discrimination, and hatred against him or her
7. a line of thought that explains social phenomena in terms of natural ones
8. the biological differences that distinguish males from females
9. a consciousness raising movement to get people to understand that gender is an organizing principle of life
11. Talcott Parson's theory that men and women perform their sex roles as breadwinners and wives/mothers
