# Chapter 9

## Across

1. Thickening of the nails
3. Condition caused by an injury or disease
12. Visible depressions running across the width of the natural nail plate
14. Nails turn a variety of colors

## Down

2. Condition in which a blood clot forms under the nail plate

4. Caused by a lack of circulating oxygen in the red blood cells
5. Darkening of the fingernails or toenails
6. Abnormal condition that occurs when the skin is stretched by the nail plate
7. Noticeably thin, white nail plates that are more flexible than normal
8. A condition in which the living tissue surrounding the nail plate splits or tears

9. A noninfectious condition that affects the surface of the natural nail plate causing tiny pits or roughness
10. Whitish discoloration of the nails
11. Soft spoon nails
13. Inflammation of the nail matrix followed by shedding of the natural nail
