

Chapter One Definitions

Across

- 1. This training emphasizes assessment, care, and transportation of the ill or injured patient
- 3. Specialized teams designed to provide medical care following a disaster
- 6. Orders to perform a skill or administer care from the on-duty physician, given to the rescuer in person by radio or by phone
- 7. An EMS system's written standing orders and protocols, which authorize personnel to perform particular skills in certain situations without actually speaking to the medical director or the designated agent
- 8. The chain of human resources and services linked together to provide continuous emergency care at the scene and during transport to a medical facility
- 11. A member of the EMS system who provides prearrival instructions to callers, thereby helping to initiate lifesaving care before EMS personnel arrive.

- 13. The supervision related to patient care provided for an EMS system or one of its components by a licensed physician
- 14. A hospital that is capable of providing specialized services such as trauma care, pediatric care, cardiac care, stroke care, or burn care
- 16. The care that an emergency medical responder, and emergency medical technician, or paramedic is allowed and supposed to provide according to local, state, or regional regulations or statutes
- 17. The prehospital assessment and basic care for the ill or injured patient

Down

- 2. A member of the EMS system whose training includes advanced life support care, such as inserting advanced airways and starting IV lines
- 4. A physician who assumes the ultimate responsibility for medical oversight of the patient care aspects of the EMS system

- 5. A member of the EMS system whose training includes basic-level EMT training plus responsibility for a minimal level of advanced life support
- 9. the medical director's specific instructions for specific medical conditions or injuries
- 10. A member of the EMS system who has been trained to render first-aid care for a patient and to assist higher-level providers at the emergency scene
- 12. A continuous improvement in the quality of the product or service being delivered
- 15. Written guidelines that direct the care EMS personnel provide for patients
