

Name: _____

Date: _____

Chemical reactions

Across

4. Reactants go on which side of a chemical equation?
7. What is heat an example of?
8. Reactions that take in energy are called?
9. What b might show a reaction has taken place
10. Reaction equations have what in the middle?

Down

1. Which reaction gives out energy as heat?
2. An example of an endothermic reaction
3. What is the piece of equipment used to measure temperature?
5. temperature does what in an endothermic reaction?
6. What is the name of the chemicals on the right of a chemical equation called?
