

Name: \_\_\_\_\_

# Chemistry

## Across

- 2. liquid to gas
- 3. proton positive charge
- 4. molecular change
- 6. takes its own shape
- 8. the smallest thing
- 9. around the nucleus
- 13. neutral charge
- 14. what we breathe

- 16. where all the elements are
- 18. two or more separate elements mixed
- 19. the center of an atom
- 20. atoms put together

## Down

- 1. water is attracted to water
- 5. gas to liquid

- 7. water is attracted to other substances
- 10. takes the shape of its container
- 11. solid to gas
- 12. positive charge
- 15. a branch of physical science that relates to matter and its properties
- 17. what is on the periodic table
