

Class 5

Across

- 3.** Small GTPase that regulates nuclear import
- 6.** Binds to NLS for transport into the nucleus
- 8.** The act of thinking about thinking
- 9.** Site of lipid biogenesis in a cell
- 10.** A protein that prevents unfolded polypeptides from aggregating

Down

- 1.** Coat protein involved in endocytosis
- 2.** Protein that mediates scission of vesicles from a membrane
- 4.** Site of O-linked glycosylation
- 5.** Process of embedding a protein in the membrane of the ER
- 7.** Gel like substance that fills cells
