$\qquad$

## Crossword Puzzle Assignment

## Across

2. constant and steady pressure
3. a smooth back and forth motion
4. The displacement of the medium is perpendicular to the wave
5. Molecules move farther apart
6. Maximum upward displacement
7. Deals with time
8. A disturbance (sound source) creates changes in pressure throughout an elastic medium.
9. Molecules move closer together
10. frequency at which an object vibrates freely and is determined by the object's length, density, tension, and stiffness.
11. Used to visually represent simple harmonic motion or all the energy located at one frequency.
12. Lowest point in a cycle
13. The displacement of the medium is parallel to the wave
Down
14. An object that vibrates at its own natural or resonant frequency
15. one compression and one rarefaction
16. time it takes for one cycle to occur
17. "the quantity of three-dimensional space occupied by a liquid, solid, or a gas 6. known as compression
18. known as rarefaction
19. is something that is set into vibration
by the action of another vibration
20. "any influence that causes an object to undergo a change in speed, a change in direction, or a change in shape"
21. an intervening substance through which a force acts or an effect is produced
22. a force that "acts perpendicularly on a surface"
23. "Maximum distance away from rest position that the molecule is displaced
24. The property of an object to return to its original shape
25. "is the condition of a vibrating system that is driven by a periodic force at the natural frequency of the system. Under this condition, the amplitude of the vibration can become very large."
26. "refers to the amount of matter in an object"
27. An object in motion stays in motion, an object at rest stays at rest
28. number of cycles per second
