# Crossword on rhetorical devices

## Across

4. What is a speaker uses language that really moves the listener?
5. What do we call it when there is the same sounding letter at the start of a word?
6. Do you know what the term is when something is the complete opposite?
8. What's the term when we over exaggerate?
9. Can you think of one where it says the same thing, says the same thing?

10. Which rhetorical device might fit in here (three words for this)?

## Down

1. Can you add the 'comparative' device?
2. If you speak straight at someone else, what do we call it?
3. What is the term when something 'becomes' something else?
7. What is the repeated 's' sound term?
