# DNA

## Across

2. UAC is the ----- of AUG  
 3. A protein is called a -----  
 7. Messenger RNA  
 8. The short form of deoxyribonucleic acid  
 11. Short term of ribonucleic acid,  
 12. Transfer RNA  
 14. Process of two identical DNA  
 18. Monomer of protein

19. Is the first step of gene expression  
 20. DNA model  
 21. We all have it  
 22. Uracil, Guanine, Thymine, and Cytosine  
**Down**  
 1. Guanine is the ----- base of Cytosine  
 4. A process that make proteins  
 5. Adenine-Thymine Guanine-Cytosine

6. DNA replication is  
 9. Is a step in protein biosynthesis where the genetic code is carried by mRNA  
 10. Ribosomal RNA  
 13. A mistake when the DNA is copied  
 15. AUG is a  
 16. A cell organelle  
 17. Monomer of nucleic acid
