

# DNA, RNA, & Replication

**Across**

- 3. process of copying DNA
- 5. adenine
- 7. unzipping enzyme
- 8. Control center of the cell
- 10. structure made of DNA

- 11. one of four basic biomolecules containing CHONP
- 12. monomer of nucleic acid
- 13. process by which DNA makes an exact copy of itself

**Down**

- 1. uracil

- 2. guanine
- 4. attaching enzyme
- 6. DNA
- 9. small segment on a chromosome
