

DNA and Forensic Science

Across

5. Used to cut DNA into smaller pieces

10. DNA moves to the _____

electrode in electrophoresis

11. CODIS STR

12. Method of making millions of copies of DNA

13. The shape of DNA, Double _____

14. It is the "A" in DNA

15. DNA codes for these

17. DNA inherited from mother only

Down

1. They established DNA's structure

2. Blood cells that have DNA

3. CODIS STR

4. Always pairs with Guanine

6. Always pairs with adenine

7. One number below peak on STR indicate

8. First step in DNA profiling

9. D7S280 repeat sequence

16. short tandem repeat abbreviation
