

Data Representation

Across

4. 8 bits
 6. the frequency of reading a sound sample
 7. compression between frames of a video
 9. 4 bits
 11. binary digit
 12. images that are made with equations

14. compression that uses run-length encoding

15. the number of pixels in an image

Down

1. compression within a single frame of a video
 2. character set to include most languages
 3. number system with a base of 16

5. number of bits to store one pixel

8. the smallest unit of an image

10. compression that can be restored to its original file

13. A standard set of characters
