# Deciding to Parent Review

## Across

4. Parenting style in which parents desire to provide for and protect their children beyond what is in the best interest of children.

9. Discipline technique in which parents use or threaten to use some form of physical punishment or deny privileges

10. Providing all aspects of care for a child, which includes meeting physical, intellectual and social-emotional needs.

## Down

1. Resources used to meet child-related expenses that could have been used to meet other goals.

2. Parenting style in which parents give children almost no guidance or rules

3. Technique in which parents discipline their children by reasoning and explaining to them why they should or should not use certain behaviors.

5. Parenting style in which parents set some rules, but allow some freedom.

6. Discipline technique in which parents threaten children with being unloved or suggest some form of parent/child separation.

7. Parenting style in which parents desire to provide for and protect their children beyond what is in the best interest of the child.

8. Words and actions parents use to influence their children's behavior.
