# Digestion

## Across

4. Proteins are broken down into...
6. Enzyme that breaks down proteins
8. Liquid produce by the liver to emulsify fats
10. Enzyme that breaks down lipids
11. Lipids are broken down into fatty acids and ...

## Down

1. What happens to enzymes at high temperatures?
2. Starch is broken down into..
3. Enzyme that breaks down starch
5. What binds to an enzyme?
7. Biological catalysts that speed up digestion
9. Starch is detected using which chemical?
