

Do You Know Electricity

Across

- 2. Measure of reactive power
- 9. Electric current increase measured in volts
- 10. Electrical current attached to the earth
- 11. Test/Reset
- 13. Reverses Direction many times
- 14. Discharge brought on electricly from fluid

- 15. Standard unit of frequency
- 17. Standard unit of inductance
- 18. Energy measured in watts
- 19. Concept of resistance to an AC circuit
- 20. Opposing Force

Down

- 1. Flowing in One Direction
- 3. Designed to trip a circuit breaker

- 4. Unit of measurement for electricity
- 5. Resulting from mechanical stress
- 6. The standard unit of capacitance
- 7. Measure of resistance
- 8. Electricity going somewhere
- 12. Equivalent to one joule per second
- 16. Flow of electric charge
