

Name: _____

EMD Protocol, Rules, and Terms

Across

7. One Patient Down, trouble around? Two Patients down, coincidence found? Three patient down, danger abounds
10. A thing not looks for is seldom found
14. The presence of an AED does not ensure the use-the EMS does.
15. My sister has a headache and her speech is slurred
16. Physical injury or wound caused by an external force through accident or violence.
17. My brother has a low sugar level

Down

1. If someone is burned, something is burning
2. Don't create more victims at the scene
3. A state of unconsciousness from which the patient cannot be aroused
4. "Hurts to breathe" is not considered difficulty or abnormal breathing
5. Always assume there is a pillow or other object behind the patient's head unless you know otherwise.
6. Near fainting is best described as "almost fainted" and should be considered the same as fainting (not just dizzy)

8. EMDs will follow all protocols per se, avoiding freelance questioning or information unless it enhances, not replaces, the written protocol questions and scripts.
9. Don't get it on you or even touch it
11. I was feeling dizzy and fell down
12. An Unquestionable situation due to severe injuries incompatible with life
13. Abnormal breathing, Chest pain/discomfort (any), decreased level of consciousness, and serious hemorrhage
