# Earth Science

## Across

5. Moving of broken down rocks

10. Earth system containing Earth's living things

11. Breaking down of rocks

12. Earth sphere containing all of Earth's rocks

13. Earth system containing Earth's water

## Down

1. Earth system containing Earth's frozen water

2. The energy moving through Earth's systems

3. Earth system containing Earth's gasses

4. Settling of broken down rocks and sediments

6. Tearing away surface by rocks rubbing against each other

7. What do you call the group when you join geosphere, hydrosphere, cryosphere, atmosphere and biosphere

8. Breaking down of rocks by water, wind, ice, and gravity

9. Oxygen chemically changing things
