# Earth in Space Unit Project

## **Across**

- 7. resistance of change
- 9. most daylight and shortest day
- 10. imaginary line passing through earth's center
- 11. the darkest shadow
- 13. the rise and fall of ocean water
- 14. objects of interest including planets, moons, stars, galaxies, and comets

16. a circular movement of an object around a center

17. complete circuit

18. the phases of the moon

## **Down**

- 1. great difference between low and high water
- 2. push or pull
- 3. rotation around something

4. equal day and equal night

5. the changing positions of the moon

6. the lighter part of the shadow

8. a force attracting objects together

12. the amount of matter in an object

15. the smallest difference between low and high water
