

Earths Interior

Across

- 5. The physical layer of the crust
- 7. A scientific theory explaining the large scale motion of seven large plates
- 9. The sphere of solid nickel and iron at Earth's Center
- 10. what is the planet we live on
- 11. A theory explaining the structure of the Earths crust
- 13. The liquid, outer shell of Earth's core

- 15. magnetic patterns of sea floor rock
- 16. A whole landmass
- 17. The condition of a material in a solid state that gives it the ability to flow
- 18. A boundary at which two plates move past each other horizontally

Down

- 1. A movement of matter due to differences in density due to differences in temperature

- 2. A wave of vibrations that travel through Earth
- 3. A shallow layer of the upper mantle
- 4. The thin,, solid, outermost layer of Earth
- 6. a boundary where two plates collide
- 8. Center of Earth
- 12. A boundary where two plates move away from each other
- 14. The solid layer of Earth, between the Crust and Core
