Electricity

Across

- **4.** the flow of charge in a circuit flows from negative to?
- **6.** to find the total resistance, you need to the diffferent resistances together
- **9.** unit of measurement for current
- **10.** A battery supplies current
- **12.** unit of measurement for voltage

- **13.** Another word for potential difference is
- **14.** Mains electricity supplies
- **15.** Equipment used to measure current in a circuit

Down

- 1. the flow of electrical charge in a circuit
- **2.** type of circuit where the components are connected in a line
- **3.** this component provides electrical energy

- **5.** measurement of resistance
- 7. which component allows the current to flow one way through it?
- **8.** A single battery in a circuit
- **11.** Equipment used to measure potential difference in a circuit
