

Electricity

Across

- 3. unit of force
- 5. The same charges ?
- 8. When a switch is not connecting the circuit.
- 9. a path in which electrons flow.
- 10. Positive charge.
- 12. a stationary electric charge.

13. unit of power.

14. a flow of electric charge.

Down

- 1. When energy is transferred by an electric circuit.
- 2. a sudden discharge of electricity through a part of the body.
- 4. Negative charge.

6. Opposite charges ?

7. a device for making and breaking the connection in an electric circuit.

11. unit of electrical resistance.
