

Electron Configuration Vocabulary

Across

2. The _____ does not apply to bosons.

4. _____ can also be thought as the Bus Rule.

5. n-_____
describes the energy level.

9. Radio waves have the lowest_____

12. The chemical properties of the elements reflect their_____.

13. X-rays are types of

15. The _____ includes radio waves, microwaves, light and more.

16. The first element in a period of the periodic table introduces a new _____.

Down

1. Each electron in an atom has a unique set of _____ numbers.

3. _____ to be in a higher energy level.

6. An orbital may be also called an _____.

7. A particular set of solar _____ are harmful to the skin.

8. _____ to be in the lowest energy level possible.

10. In chemistry, _____ refer to energies associated with electrons

11. The _____ is sometimes called the building-up principle.

14. _____ are often described as energy packets.
