

# Electronics revision

## Across

- 4.** What is capacitance measured in?  
**6.** On an oscilloscope time is measured on the  
**8.** What is electrical pressure measured in  
**9.** Must be used to help solder flow

- 10.** What is a measurement of magnetic strength?  
**12.** Famous for his electrical formulas  
**13.** This can be used to regulate current flow  
**14.** A regular sine wave is called?

## Down

- 1.** The top of a waveform

- 2.** Device that shows waveforms  
**3.** This man discovered electromagnetism  
**5.** This is used to step up or down voltage  
**7.** A non mechanical electronic switch  
**11.** In a circuit this can be used to reduce current flow
