

Name: _____ Date: _____

Endocrine System

Across

8. Hyper secretion of Ovarys causes _____ in females?

9. Pineal gland is located at _____ of brain

11. Serotonin Present in Platelets, CNS and _____ wall

12. Target effect of Parathyroid gland is skeleton, kidneys and _____?

14. Hypo secretion of TSH in adults is _____?

16. Hyper secretion of Calcitonin symptoms are Dry and _____ Hair?

18. Give abbreviation for LH in male (another name) ?

19. Hypo Secretion of Parathyroid Gland results in Twitches and _____ cramps

20. Target effect of Pancreas- _____?

21. Pineal gland inhibits Development of sex organs before _____

23. Gluco-corticoids of adrenals reduce _____?

25. Testes are needed for _____ production

28. Target/effect of ovarys is sex drive and _____ growth?

29. Testes Increase production of _____ (abbreviation)

30. LH- _____ Hormone

Down

1. Hypo secretion of adrenals gives you _____ disease

2. FSH- _____ Stimulating Hormone

3. Local hormones for thymus is Histamine, Serotonin and _____

4. endocrine Glands consist of _____ Glands

5. endocrine Gland secretes _____?

6. Hyper secretion of ACTH is _____ Disease?

7. Overactivity of Sympathetic Nervous System of Adrenal Medulla is _____ Secretion

10. Insulin is produced by _____ cells

13. Testes produce _____ Hormone

15. Ovarys produces hormones Oestrogen, Androgen and _____?

17. Pineal gland secretes _____ Hormone

22. PTH- _____ Hormone

24. Progesterone is produced in Corpus _____?

26. Histamine is synthesised by _____ cells in tissues and basophils in blood.

27. Pineal gland sits in _____
