# Energy

## Across

4. nuclear energy is in the

6. radiant energy with the least energy

10. moving electrons

11. radiant energy with the most energy

12. type of energy in batteries

13. energy that is moving

15. chemical energy is in the

16. heat energy

17. type of energy the holds you on earth

## Down

1. type of energy that moves in waves through molecules

2. photons moving at the speed of light

3. type of energy with fusion or fission

5. stored energy

7. solid, liquid or gas that is moving

8. radiant energy that we see

9. moves using conduction or convection

14. the ability to do work
