

Name: _____

Date: _____

Energy Sources

Across

5. The use of waves' potential energy to make other forms of energy
7. The use of radiation and heat from the sun to make energy
8. Electricity generated by hydropower
9. a form of energy conversion where turbines form kinetic energy from the wind into electrical or mechanical energy
10. Used to convert wind's potential into electrical energy

Down

1. What is stored energy?
2. What is a form of hydro-power that converts energy from tides into electricity or other forms of power?
3. Energy that comes from the heat of the Earth
4. a renewable energy source from living or recently living plant and animal materials which can be used as fuel
6. Energy produced by a chemical reaction into usable electric power

Word Bank

Hydrogen Energy
Wind Energy
Tidal Energy
Potential Energy

Wind Turbines
Geothermal Energy
Hydroelectric Energy

Solar Energy
