

Name: _____

Date: _____

Energy Transfer

Across

- 5. The type of radiation with the lowest energy
- 7. Temperature of air with low pressure
- 8. The movement of a fluid due to the change in temperature
- 9. The movement of air in the Earth
- 10. The movement of water in the Earth

Down

- 1. The type of radiation with the highest energy
- 2. These currents travel on the surface of water
- 3. These currents travel deep down in the ocean
- 4. The transfer of energy in the form of heat or electricity
- 6. Energy from a source that travels through space
