

# Energy Vocab

## Across

**1.** Electromagnetic waves that transfers energy

**8.** Energy to an object that is created by motion

**9.** Kinetic and potential energy connected to the motion/position of an object

**10.** Pressure on an object that causes movement

**11.** Electromagnetic waves that makes what we hear

**12.** Storage for energy that is ready

## Down

**2.** Potential energy stored in an atom's nucleus

**3.** Potential energy based off a objects height

**4.** Energy of moving electric charges

**5.** Potential energy stored in chemical bonds

**6.** Energy from a stretched or compressed object

**7.** Total of energy particles in an object
