

Name: _____

Engineering

Across

- 2. make food processing machines
- 3. Design oil mining machines
- 6. Makes sure an item is of good quality
- 8. test the stress point of material
- 9. make Jet engines
- 13. Designs X-ray machines to view bodies
- 15. heat transfer
- 16. Reducing wastefulness in Production

Down

- 18. automobiles
- 19. responsible for making sure your utilities are available
- 20. geography
- 21. Seagoing vessels
- 23. environment
- 25. medicine
- 26. Design components for railroads
- 1. Designs animal habitats
- 4. Designs

- 5. oversees water quality and sewage equipment
- 7. Developing computer software
- 10. Design highways and flow of traffic
- 11. Supervise lighting manufacturing
- 12. spacecrafts
- 14. extracting oil and gas
- 17. Building designs
- 22. deal with human movements
- 24. Design or develop nuclear equipment
