

Name: _____

Engineering

Across

- 5. making sure every thing works
- 6. Designs phones and how they transfers data
- 7. Designs animal habitats
- 9. Manipulate instruments
- 12. oil mining machines
- 18. Designs X-ray machinist to view body
- 20. working on car specks
- 21. Makes tools for doctors
- 22. Design nuclear power plants

- 23. Design highways and flow of traffics

- 24. Create concepts or cars
- 25. makes medicine susceptible for animals

- 26. Insulate houses

Down

- 1. Medical Instruments
- 2. Making sure buildings are structurally strong
- 3. Dealing with human movements
- 4. Create every day things

- 8. Supervise lighting manufacturing

- 10. over sees water and quality and sewage waste

- 11. test the stress point of material

- 13. Makes sure items are good

- 14. Making jet engines

- 15. Distribute electricity

- 16. Manipulate and study DNA
- 17. designs components for rail roads

- 19. Making paper machines

Word Bank

Flight
Structural engineer
Veterinarian
Genetics
Railroad Engineer
water and sewer

Quality engineer
Nuclear engineers
Yield Engineer
Car Designer
Medical engineers

Highway engineer
Paper engineers
insulation Engineer
Zoologist
Oil engineer

Automotive
Lighting
Electrical engineers
Jet engineer
technology Engineer

Utilities engineer
Kinetic
X-ray
Design Engineer
Bio-engineers
