# Engineers

## Across

2. what engineer makes sure buildings are structurally strong  
 5. what engineer makes medicine suitable for animals  
 9. what engineer testes the stress point of material  
 10. what engineer makes food processing machines  
 11. what engineer makes anti lock brakes for cars  
 14. what engineer makes paper making machines  
 17. what engineer is responsible for making sure your utilities are available  
 18. what engineer makes sure an item is of good quality

19. what engineer makes tools for doctors  
 20. what engineer designs oil mining machines  
 22. what engineer makes planes and space crafts  
 25. what engineer supervises lighting manufacturing  
 26. what engineer makes advances in technology foe health

## Down

1. what engineer oversees water quality and sewage treatment  
 3. What engineer designs X-ray machines to view bodies  
 4. what engineer designs phones and how they transmit data and voice to one another  
 6. What engineer designs animal habitats

7. what engineer designs electrical wires and electrical poles  
 8. what engineer manipulates and study's DNA  
 12. what engineer designs and build tunnels and bridges  
 13. what engineer designs components for railroads  
 15. what engineers deal with movements humans make  
 16. what engineer designs nuclear power plants  
 21. what engineer makes jet engines  
 23. what engineer insulates houses and buildings  
 24. what engineer designs highways and flow of traffic
