# Engineers

## Across

2. what engineer makes sure buildings are structurally strong
3. what engineer insulates houses and buildings
6. what engineer manipulates and studies DNA
10. what engineer designs oil mining machines
11. what engineer makes tools for doctors
13. what engineer designs phones and how they transmit data and voice to one another
17. oversees water quality and sewage treatment
20. What engineer makes advanced technology
21. which engineer makes jet engines

22. what engineer makes sure an item is of good quality
23. what engineer designs nuclear power plants
24. what engineer designs highways and flow of traffic
25. which engineer tests the stress point
26. What engineer makes planes and space crafts

## Down

1. what engineer is responsible for making sure your utilities are available
4. which engineer designs and build tunnels and bridges
5. what type of engineers make anti lock breaks for cars
7. which engineer makes medicine suitable for animals

8. what engineer designs electrical wires and electrical poles
9. what engineer designs animal habitats
12. what engineer makes food processing machines
14. what engineer supervises lighting manufacturing
15. what engineer deals with movements humans make
16. what engineer makes paper making machines
18. what engineer designs components for railroads
19. which engineer designs x-ray machines to view bodies
