

Enzymes in Digestive system + Bile

Across

7. Where is Bile produced?
 8. What is produced in the gall bladder?
 9. Where is pepsin found and produced?
 11. Lipids are turned into 3 fatty acids and glycerol using which enzyme?

12. What is the process by which bile salts increase the rate of Lipase?
 13. What is the optimum pH for the enzymes released into the Duodenum?

Down

1. Which glands release hydrochloric acid?

2. Pepsin turns protein into what?
 3. Which acid is released into the stomach?
 4. What is Pepsin's optimum pH?
 5. Which Enzyme Turns Maltose into Glucose?
 6. Starch is turned to Maltose by what?
 10. Where is Amylase found?
