

Eukaryotic cytoskeleton

Across

3. what protein makes up microtubules?
4. what long chain of proteins are microfilaments?
8. what protein is vital for movement of things?
9. what is the other word for undulipodia?
10. what forms spindles before a cell divides?

Down

1. what do intermediate filaments anchor to the cytoplasm ?
2. what supports and strengthens the cytoskeleton?
5. Name a cytoskeletal motor starting with the letter D
6. where is the cytoskeleton found?
7. what is hydrolysed in the cytoskeletal motor?
