# Extra Credit

## Across

2. reciprocal of cosine

5. cosine over sine

8. side that rotates

11. side that does not move

12. circle with center at the origin and radius one

13. acute positive angle formed by the terminal side of an angle

## Down

1. angle that forms when two radii meet at the center of a circle

3. angles that share the same initial and terminal side

4. reciprocal of sine

6. 'y' in an ordered pair

7. central angle that intercepts an arc equal in length to the radius of a circle

9. sine over cosine

10. 'x' in an ordered pair
