

Famous Mathematicians

Across

1. Who is credited with Set Theory?
6. Who created the platonic solids?
7. Who developed the Cartesian Coordinate System
8. Who came up with Prime Numbers and worked exclusively in the field of Number Theory?
10. Who is responsible for coming up with the fundamental theorem of Algebra?

Down

2. Who wrote "The Elements"?
3. Who is credited with the theorem to prove a triangle is a right triangle?
4. Who created a the triangle which is the binomial coefficients?
5. Who is responsible for work that served as a precursor to general relativity?
9. Who formulilzed many mathematical notations?
