# Fields: "What It Means To Be a Women"

## Across

7. This romantic relationship is essential for true happiness in life for both sexes.
8. The social system in which men dominate of what gives rise to paternalistic attitudes toward women.
9. Posits that gender inequality is maintained through stereotypic attitudes and beliefs about women.
10. Similar to the traditional antipathy model of prejudice.

## Down

1. Fuses sex with power and expresses the belief in women's sexuality as dangerous to men.
2. Women and men are fundamentally very different.
3. Men ought to have more power than women.
4. Men ought to protect and provide for the women on whom they depend to support their dominant role.
5. The less obvious form of sexism and based on the "likable" stereotypes of women.
6. Women are ultimately inferior to men on competence-related dimensions.
