

Name: _____

Date: _____

Forces

Across

2. Has magnitude only
6. As one quantity increases so does the other
7. The amount of matter inside of an object
9. Force is proportional to extension
10. These forces can act at a distance

Down

1. All objects above ground have this type of energy
3. All objects that have mass exerts this force
4. Also known as energy transferred
5. The unit for energy
8. Has magnitude and direction
