Date: _____

Forensic Psychology 4

Across

4. Jurisdiction of a court's authority to hear appeals from decisions of lower courts
6. Courts that deal only with particular matters
7. Court proceeding during which criminal defendants are formally charged with an offense, informed of their rights, and asked to enter a plea
8. Jurisdiction referring to authority of lower courts that can only settle small disputes or deal with preliminary issues to a major case
9. A court appearance if an arrested individual is being held in jail rather than released or cited to appear in court at a later date
10. The enterprise in which clinicians offer probabilities that a given individual will engage in violent or otherwise antisocial behavior based on known factors relating to the individual

Down

1. A body of citizens that is directed by the prosecutor to weigh evidence and decide whether there is enough to charge a person with a criminal offense
2. Aspects of a person's developmental history that place the person at risk for antisocial activity but cannot be changed
3. Proceedings during which potential witnesses are questioned by attorneys for the opposite side, under oath and in the presence of the court recorder, although typically away from the courtroom
5. Jury selection by which procedures are used by social scientists consulting with lawyers in efforts to help lawyers select jurors who may be most sympathetic to their side
