

Forms of Energy

Across

- 5.** The motion of waves, electrons, atoms, molecules, and substances
- 7.** Energy stored in objects
- 9.** The energy of an object or substance in movement

10. Electromagnetic energy

12. Energy stored in the nucleus of an atom

Down

1. The energy of place or position

2. The energy of electrons

3. Energy that moves through substances

4. The energy stored in the bonds of atoms

6. Stored energy

8. Ability to cause change

11. Internal energy in substances
