

General Science

Across

3. Part of the fore brain which controls sense of smell
 9. The main thinking part of the brain
 13. The iron rod covered with brown patch by exposure to air
 14. Largest part of the brain
 17. "Bending" of light from one medium to another
 18. In a neutralization reaction, an acid reacts with -----to form salt and water
 20. A mirror that can form real as well as virtual image

Down

1. A reaction in which oxidation and reduction take place together
 2. A bundle of light rays
 4. A chemical reaction which releases heat with products
 5. Part of brain that regulates heartbeat
 6. A chemical reaction that requires heat
 7. An insoluble substance formed in double displacement reaction
 8. Part of the brain responsible for balance and posture of the body
 10. Power of lens is measured in

11. Speed of light in a -----is 3000,000 km/s
 12. Bones that protect brain
 15. A combination of chemical symbols and numbers
 16. Type of lens used in magnifying glass
 19. Light travels fastest in -----
