

Name: _____ Date: _____ Period: _____

Genetics

Across

2. What the trait looks like physically.

8. A Piece of DNA with instruction?

11. All of an organisms genetic material.

13. Both traits are dominant, so both will show in phenotype?

14. A trait associated with a gene that is carried only by the male or female parent.

15. An allele that is hidden by another.

Down

1. Looks like the blending of the 2 traits.

3. Different forms of a gene?

4. Model that predicts all possible genotype resulting from mating.

5. Both alleles for a gene are different.

6. Traits that can be passed down from one generation to the next.

7. Likelihood that a particular event will happen.

9. The allele that is expressed and can "mask" another allele?

10. Both alleles for a gene are the same.

12. Set of alleles an organism has for a trait ?
