

Name: _____

Date: _____

Geometry Ch 1 and 3 Vocab

Across

- 3. The point in the exact middle of a line segment
- 6. Angles with the same measure
- 7. Two angles that form a line
- 8. Angles on the same side of the transversal that lie in the same exact spot in the intersections
- 12. Two angles that add to 90 degrees
- 13. Angles on opposite sides of the transversal and on the inside of the lines

- 15. Non-coplanar lines that do not intersect

- 17. Divide into 2 equal parts

- 19. On the same line

- 20. An angle that measures less than 90 degrees

- 21. Coplanar lines that never intersect

Down

- 1. On the same plane

- 2. An angle that measures greater than 90 degrees and less than 180 degrees

- 4. Lines that intersect to form 90 degree angles

- 5. Angles on opposite sides of the transversal and on the outside of the lines

- 9. Two angles that add to 180 degrees

- 10. The point 2 or more figures have in common

- 11. Angles on the same side of the transversal and on the interior of the lines

- 14. The starting and stopping points on a segment

- 16. An angle that measures exactly 90 degrees

- 18. A line that intersects 2 or more coplanar lines
