# Geometry Crossword Puzzle

Across
3. Two angles that form a line.
4. An angle that measures greater than 90 degrees and less than 180 degrees.
8. On the same line.
9. Non-coplanar lines that do not intersect.
15. Angles on opposite sides of the transversal and on the inside of the lines.
17. The point 2 or more figures have in common.
18. The point in the exact middle of a line segment.
19. A line that intersects 2 or more coplanar lines.

21. Two angles that add up to 180 degrees.
22. Angles on opposite sides of the transversal and on the outside of the lines.
23. A line that intersects 2 or more coplanar lines.
Down
1. Angles on the same side of the transversal that lie in the same exact spot.
2. An angle that measures exactly 90 degrees.
5. Angles with the same measure.
6. Angles on the same side of the transversal and on the interior of the lines.

7. Lines that intersect to make a 90 degree angle.
10. Coplanar lines that never intersect.
11. Angles on the same side of the transversal that lie in the same exact spot.
12. Two angles that add up to 90 degrees.
13. On the same plane.
14. The starting and stopping points of a line segment.
16. Divide into 2 equal pieces.
20. An angle that measures less than 90 degrees.
