

Name: _____ Date: _____ Period: _____

Geometry vocab review

Across

5. the point halfway between endpoint

11. a ray divided an angle into 2 congruent angles

12. greater than 90 degrees

13. point m is between points p and q if they are collinear

14. part of one line with an endpoint/extends indefinitely in one direction

15. flat surface /extends indefinitely/ named using 3 non-collinear points

17. 180 degrees

18. same measure

19. 2 end points/can be measured

20. a ray, line, a segment, or plane that divides into a segment in 2 congruent segments

Down

1. points on the same line

2. 90 degrees

3. a location/ name using a capital letter

4. two angles that lie in the same plane, have a common vertex, and a common side, but no common interior points.

6. 2 non-collinear rays

7. points not on the same line

8. less than 90 degrees

9. extends indefinitely in both directions

10. common endpoint of an angle sides each angle has 2 sides

16. on the same plane
