

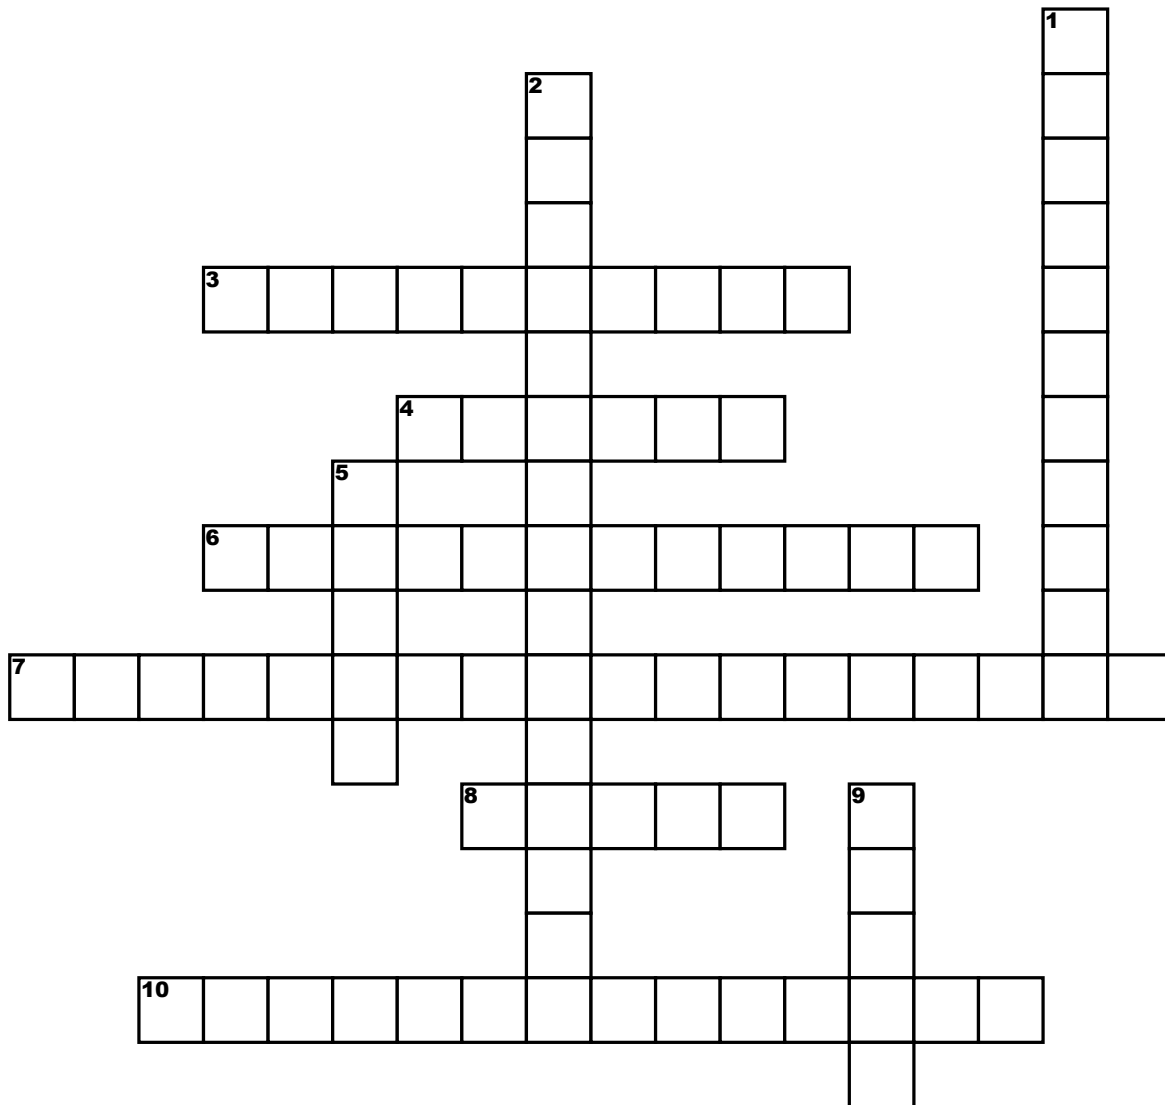

# Graphing Linear Equations

## **Across**

- 3.** The value where a straight line crosses the Y axis of a graph.
- 4.** The starting point
- 6.** A general term meaning "written down in the way most commonly accepted".
- 7.** Most commonly used in algebra classes.
- 8.** A steep straight line.

- 10.** An equation that makes a straight line when it is graphed.

## **Down**

- 1.** Two numbers written in a certain order.
- 2.** The plane containing the "x" axis and "y" axis.
- 5.** The line on a graph that runs horizontally through zero.
- 9.** The line on a graph that runs vertically through zero.
